ALEXANDRU MOTOC
iOS Developer

ABOUT ME

iOS developer since 2014, focused on architecting quality software in Swift and Objective-C. Experienced in combining different technologies like Ruby and Javascript to provide complete solutions. Involved in various iOS development challenges which include: building complex UI and custom presentations, working with BLE peripherals, handling push notifications, integrating and manipulating cloud drive SDKs, writing unit tests and documentation, and maintaining projects. Flexible mind, keen on learning new technologies required for accomplishing the desired results.

EXPERIENCE

(2014-present)
X2 Mobile

iOS Developer
Outsourcing industry
